

List of Chinese financed dams in Africa

China, through its Export and Import Bank, Sinohydro, China International Water & Electric Corporation (CWE), China and China National Water Resources and Hydropower Engineering Corporation (CWHEC); as well as China National Machinery and Equipment Import and Export Corporation (CMEC); are fuelling the dam boom in Africa. In a number of cases, the construction of dams are endeavoured in areas of high biodiversity without a concomitant Environmental and Social Impact Assessment. Notwithstanding, the following list, indicates the 22 countries in Africa where Chinese companies are financing and constructing dams or have plans to do so.
